DPM: Govt that delivers will not be thrown out

SINTOK: Deputy Prime Minister Tan Sri Muhyiddin Yassin has slammed critics who claimed the Government would fall as the situation here was similar to the political upheaval in the Middle East.

"This is a baseless and reckless allegation," he said.

Muhyiddin added the scenario here was dif-

ferent as people could choose a government that listened to its citizens.

"We are aware that if we do not listen to the people's woes and carry out our responsibilities well, the people will do the calculations during the elections," he said when opening Universiti Utara Malaysia's (UUM) 27th founding day celebrations here yesterday.

Muhyiddin said the Government's focus was to put the people's interest first by being fair to all and by achieving performance-driven results.

"If we are able to deliver, I am confident the people will not throw the Government out.

Muhyiddin said that as a management university, UUM should strive to be on par with Harvard University.
